Funding Allocation	FY 2008	Allocation	Amount:	\$
--------------------	---------	------------	---------	----

School Identification & Contacts: Principal Name: _____

District: _____ School ID: _____ School Address: _____

Contact person: _____ Title _____ Phone _____ Email _____

Option Selection: Computer Platform (check one):	<input type="checkbox"/> WINDOWS	<input type="checkbox"/> MACINTOSH	<input type="checkbox"/> BOTH
---	----------------------------------	------------------------------------	-------------------------------

Option A: Classroom Configurations: Under this option, all funds will be spent on classroom computer configurations, networking, and minor electrification as needed.

Option B: Mobile Lab: Schools can use their awards to purchase Laptop mobile carts. These are equipped with 14-16 laptops within a secured mobile cart. This option is a great idea for a quick purchase for schools with low awards

Option C: Existing Lab Upgrade: Under this option, funds will be spent to refresh computers, peripherals, networking equipment, security devices, tables, and chairs in an existing computer lab, using a template to assure timely completion. Lab upgrades generally cost approximately \$75,000 and up.

Option D: Wireless technologies: Under this option, funds will be spent to purchase laptop and/or desktop computers equipped with wireless networking cards, transmitters, printers, etc. Projects may include wireless labs or classrooms. Each school's requirements will be individually assessed.

Option E: Upgrade Classroom Electrification: Schools can choose to use their RESO A funding to upgrade, reconfigure electrical infrastructure in the current Lab environment to meet the instructional needs. Any funding remaining after the scope is complete can be used to purchase other options (A thru D).

Date: _____ Principal's signature: _____
Principal: After completing this form, secure BTM Signature

Date: _____ BTM's signature: _____
BTM: After signing this form, fax to (212) 374-5585 Attn: G. Gordon
